

3 CORPORATE GOVERNANCE STATEMENT

(a) TP's corporate governance policy

The Company, as an issuer of securities listed on the Warsaw Stock Exchange (WSE), is obliged to comply with the corporate governance practices set out in the *Code of Best Practice for WSE Listed Companies*, which is available at <http://corp-gov.gpw.pl>.

(b) Corporate governance compliance

In 2010, the Company complied with the corporate governance best practice referred to above.

Furthermore, referring to the Section I of the *Best Practice*, the Company informs that:

- (1) The Company has applied the recommendations of the European Commission (section I.5) for remuneration of members of supervisory and management bodies. The Supervisory Board is currently reviewing the existing rules for the purpose of further formalisation thereof.
- (2) One of the Company's priorities is to ensure equal access of women and men to management positions in the Company (section I.9). Therefore, TP has developed assumptions to a project, which will determine the proportion of employing men and women on managerial posts, as well as a new set of assumptions for the recruitment process. TP has followed a policy of appointing persons with proper competence, professional experience and expertise to its supervisory and management bodies.

(c) Description of major features of TP's internal control and risk management systems with respect to the process of development of standalone and consolidated financial statements

A new TP Group Code of Ethics was adopted within the Company in 2008 which encompasses TP's relationship with customers, shareholders, employees, suppliers, competition and also with respect to the environment in which the TP Group operates. A warning system related to ethics and reporting of potential and actual fraud has been enhanced by the Group which is coordinated by the TP Group Ethics Committee. Training on ethics is provided to employees, which is confirmed by a personal certification. Formal channels for whistle blowing have been established, including reporting to the Chairman of the TP Audit Committee of the Supervisory Board, the Chairman of the TP Group Ethics Committee and the TP Group Internal Audit Director.

The system of internal control and risk management has been designed and implemented by the Management Board to manage, rather than eliminate, the risk of failure to achieve business objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

TP Group is diligent in its approach to reporting financial results and its ongoing communication with the Polish and international investment community, as well as fulfilling its disclosure obligations. The TP Group Disclosure Committee is chaired by the Chief Financial Officer. Its role is to oversee public disclosures made by TP Group, ensuring that they are timely, exact, transparent, complete, and presented in accordance with all relevant laws, applicable regulations and recognised practices, as well as being properly representative of the financial and operational condition of the Group. In 2010, the Committee had five meetings.

The key elements of such system include the following procedures:

- (1) An internal audit function, which reports directly to the President of the Management Board. The internal audit programme is annually reviewed by the Audit Committee which also analyses the Group's Internal Audit reports. In order to promote an appropriate independent outlook for the Internal Audit Department, Management Board decisions regarding the appointment and remuneration of the TP Group Internal Audit Director require, since 2005, an opinion of the Audit and Remuneration Committees.
- (2) The Group conducts ongoing assessments of the quality of risk management system and controls. As part of this process, a Risk Map which enables identification and classification of the Group's financial and non-financial risks is maintained.
- (3) Procedures were implemented in order to identify, report and monitor significant risks (i.e. legal, regulatory, environmental, financial reporting and operational) effectively on an ongoing basis. It provides a framework for the TP Group Internal Audit Department's ongoing risk-controlling activities.

In 2010, the Management Board again completed a comprehensive assessment of the Group's internal controls over financial reporting. Main deficiencies were identified and corrected or appropriate action points have been launched. As a result of the assessment, the Management concluded that there were no weaknesses that would materially impact the internal control over the financial reporting at 31 December 2010.
