## 1. The Telekomunikacja Polska Group

Telekomunikacja Polska S.A. ("Telekomunikacja Polska" or "the Company" or "TP S.A."), a joint stock company, was incorporated and commenced its operations on 4 December 1991. The Telekomunikacja Polska Group ("the Group") comprises Telekomunikacja Polska and its subsidiaries.

The Group is the principal supplier of telecommunications services in Poland. Telekomunikacja Polska provides fixed-line telephony services (local, domestic and international calls), Integrated Services Digital Network ("ISDN"), fixed access to the Internet, TV and Voice over Internet Protocol ("VoIP"). Through its subsidiary, Polska Telefonia Komórkowa-Centertel Sp. z o.o. ("PTK-Centertel"), the Group is one of Poland's major DCS 1800 and GSM 900 mobile telecommunications providers. PTK-Centertel also provides third generation UMTS services and services based on the CDMA technology. In addition, the Group provides leased lines and other telecommunications value added services, sells telecommunications equipment, provides data transmission, multimedia services and various Internet services.

### Segment revenue and segment results

Until the end of 2012, the Group reported two operating segments: fixed line and mobile segment, which included entities offering predominantly telecom services based on fixed line technology and mobile technology, respectively. Increasing convergence of fixed and mobile offers, dependence of mobile network on fixed core network and a unified organisation has significantly changed the decision making process on resources allocation basing it on consolidated operating results. Convergence became the major focus of the Group as publically announced in the medium term action plan in February 2013 which included the planned formal merger of Telekomunikacja Polska S.A. (the main part of the fixed line segment before 2013) and Polska Telefonia Komórkowa-Centertel Sp. z o.o (the main part of the mobile segment before 2013). Therefore, starting from 2013, the Group reports a single reportable operating segment.

Segment performance is evaluated mainly based on consolidated revenue, consolidated EBITDA, consolidated net income, consolidated capital expenditures, consolidated organic cash flows, consolidated net financial debt / EBITDA ratio and consolidated net gearing ratio.

Basic financial data of the operating segment is presented below:

(in PLN millions)	3 months ended	3 months ended

### 2. Statement of compliance and basis for preparation

### Basis for preparation

These unaudited Condensed Quarterly Consolidated Financial Statements of the Group (the "Quarterly Consolidated Financial Statements") are prepared in accordance with International Accounting Standard ("IAS") 34 - Interim Financial Reporting ("IAS 34") and with all accounting standards applicable to interim financial reporting adopted by the European Union, issued and effective as at the time of preparing the Quarterly Consolidated Financial Statements (see also Note 3).

These Quarterly Consolidated Financial Statements should be read in conjunction with the audited Telekomunikacja Polska Group IFRS Consolidated Financial Statements and the notes thereto ("IFRS Consolidated Financial Statements") for the year ended 31 December 2012.

The Quarterly Consolidated Financial Statements include the consolidated statement of financial position, consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and selected explanatory notes.

Costs that arise unevenly during the year are anticipated or deferred in the quarterly financial statements only if it would also be appropriate to anticipate or defer such costs at the end of the year.

These Quarterly Consolidated Financial Statements are prepared in millions of Polish zloty ("PLN") and were authorised for issuance by the Management Board on 22 April 2013.

### Adoption of standards in 2013

The following standards endorsed by the European Union were adopted by the Group as at 1 January 2013:

- IFRS 10 "Consolidated Financial Statements". This standard has been endorsed by the European Union and it is applicable for financial years beginning on or after 1 January 2014, with early application permitted;
- IFRS 11 "Joint Arrangements". This standard has been endorsed by the European Union and it is applicable
  for financial years beginning on or after 1 January 2014, with early application permitted;
- IFRS 12 "Disclosure of Interests in Other Entities". This standard has been endorsed by the European Union and it is applicable for financial years beginning on or after 1 January 2014, with early application permitted;
- IFRS 13 "Fair Value Measurement". This standard has been endorsed by the European Union and it
  is applicable for financial years beginning on or after 1 January 2013.

Except for IFRS 11, the adoption of the standards presented above did not result in any significant changes to the Group's accounting policies and to the presentation of the financial statements.

Adoption of IFRS 11 resulted in a change in accounting treatment of the 50% interest in NetWorkS! Sp. z o.o. which previously was accounted for using the equity method in accordance with IAS 31 "Interests in Joint Ventures". Joint arrangement which is structured through NetWorkS! Sp. z o.o. was classified as a joint operation under IFRS 11 and, in relation to its interest in NetWorkS! Sp. z o.o., the Group recognised its assets, liabilities, revenue and expenses, including its respective shares in the above – which insignificantly affected comparative amounts presented in these financial statements.

#### Standards issued but not yet adopted

Management has not opted for early and full application of the following standard (in the process of being endorsed by the European Union):

 IFRS 9 "Financial Instruments" applicable for financial years beginning on or after 1 January 2015. This standard has not been endorsed by the European Union.

Management is currently analysing the practical consequences of this new standard and the effect of its application on the financial statements.

### Cash generating units

Until the end of 2012, assets comprising the fixed network and the mobile network were treated as separate Cash Generating Units ("CGU"). The medium term action plan covering years 2013 – 2015 was announced on 12 February 2013 by the Management Board. According to this plan, assets of fixed and mobile networks are treated as one group of assets as they will generate largely dependent cash inflows. As a result, starting from 2013 the Group identifies two CGUs: telecom operator and internet portal (the same CGU as in 2012).

## 3. Statement of accounting policies

Except of the changes described in Note 2 the accounting policies and methods of computation used in the preparation of the Quarterly Consolidated Financial Statements are consistent with those described in the audited IFRS Consolidated Financial Statements for the year ended 31 December 2012 (see Notes 2 and 31 to IFRS Consolidated Financial Statements for the year ended 31 December 2012).

## 4. Explanatory comments about the seasonality or cyclicality of interim Group operations

The Group's activities are not subject to any significant seasonality or cyclical trends of operations.

## 5. Changes in scope of consolidation

The list of entities included in the Quarterly Consolidated Financial Statements as at and for the 3 months ended 31 March 2013 is presented in the Note 1.2 to the IFRS Consolidated Financial Statements for the year ended 31 December 2012.

Additionally, on 15 March 2013 the Group purchased a 100% shareholding in Datacom System S.A. – a provider of integrated IT services. The purchase price amounted to PLN 13 million, of which PLN 11 million was paid and PLN 2 million will be paid after one year. As a result of the transaction the Group recognised goodwill in the amount of PLN 9 million, as well as PLN 1 million of the acquiree's non-current assets, PLN 6 million of the acquiree's current liabilities which represent carrying amounts of each of those classes determined immediately before the combination.

# 6. Items affecting assets, liabilities, equity, net income or cash flows that are unusual because of their nature, size or incidence

Apart from the major litigation and claims described in Note 9, operational activities of the Group are subject to legal and administrative regulations and the Group is a party to a number of legal proceedings and commercial contracts related to its operational activities. As at 31 March 2013, the Management of the Group performed an assessment of risks of on-going and potential proceedings. As a result, the Group recognised provisions for known and quantifiable risks related to these proceedings, which represent the Group's best estimate of the amounts which are more likely than not to be paid. The actual amount of a penalty or a claim, if any, is dependent on a number of future events, the outcome of which is uncertain, and as a consequence, the amount of the provision may change at a future date. As a rule, the provisions are not disclosed on a case-by-case basis, as, in the opinion of the Management, such disclosure could prejudice the outcome of the pending cases.

The amount of cash flows from operating activities for the 3 months ended 31 March 2012 includes the effect of the settlement agreement with DPTG resulting in a payment of EUR 550 million (PLN 2,449 million).

## 7. Redemption of treasury shares

On 11 April 2013, the General Meeting of TP S.A. adopted resolutions on the redemption of 23,291,542 own shares acquired by the Company in 2012 and 2011 for a total consideration of PLN 400 million and on the reduction of the Company's share capital from PLN 4,007 million to PLN 3,937 million with the effective date being the date of registration by the Registry Court (expected in the second quarter of 2013).

### 8. Dividends

On 11 April 2013, the General Meeting of TP S.A. adopted a resolution on the payment of an ordinary dividend of PLN 0.50 per share from the 2012 profit. Total dividend, amounting to PLN 656 million, will be paid on 11 July 2013.

# 9. Changes in major litigation and claims, contingent liabilities and contingent assets since the end of the last annual reporting period

The information hereunder refers to the matters presented in Note 28.c-d to the IFRS Consolidated Financial Statements for the year ended 31 December 2012 or describes major matters that occurred after 31 December 2012.

### a. Proceedings by UKE and UOKiK

### Proceedings by UKE related to broadband access

With respect to the appeal proceedings concerning the annulled PLN 339 million fine, on 6 March 2013, the Supreme Court refused to examine the cassation appeal lodged by UKE. That decision ended the appeal procedure on the fine imposed by UKE on TP S.A. in 2007.

With respect to in the appeal proceedings concerning the annulled PLN 100 million fine, there were no developments after UKE lodged an appeal in cassation to the Supreme Court against the verdict of the Court of Appeal of 4 July 2012.

### Proceedings by UOKiK related to IP traffic

After subsequent stages of the appeal procedure, the Court of Appeal, on 9 April 2013, dismissed both appeals filed by UOKiK and TP S.A. against the verdict of SOKiK of 11 April 2011 reducing the fine imposed on the Company from PLN 75 million to PLN 38 million. The verdict of SOKiK lowering the fine is binding. UOKiK and TP S.A. can lodge a cassation appeal to the Supreme Court against the decision of the Court of Appeal of 9 April 2013.

### Proceedings by UOKiK related to retail prices of calls to Play

On 18 March 2013, UOKiK commenced competition proceedings against PTK-Centertel, Polkomtel S.A. and Polska Telefonia Cyfrowa S.A. claiming that they abused collective dominant position in the domestic retail market of mobile telephony. UOKiK alleges that the retail prices of calls made by individual users from the network of each of the three operators to the network of P4 sp. z o.o. (Play) were relatively higher than the prices for such calls to the networks of the three operators and determined without sufficient consideration of the differentiation of the asymmetric wholesale termination rates determined by UKE. In the view of UOKiK, the applied prices could result in restricting the development of competition on the retail domestic mobile telephony market.

PTK-Centertel has not yet obtained access to the documents on the basis of which UOKiK commenced the proceedings.

According to the Act on Competition and Consumer Protection, in case of non-compliance with its regulations, the President of the UOKiK is empowered to impose on an entity penalties of up to a maximum amount of EUR 50 million for refusal to provide requested information or also up to a maximum amount of 10% of an entity's prior year's revenue for a breach of the law.

### b. Proceedings by the European Commission related to broadband access

The written stage of the appeal procedure before the General Court is ongoing. TP S.A. has not yet been notified on any scheduled hearing date.

The Management assesses the matters related to the European Commission decision on a regular basis taking into account their developments.

### c. Proceedings by the tax authorities

The Fiscal Audit Office has recently completed a control relating to TP S.A.'s year 2009 and, on 16 April 2013, issued a protocol. A protocol does not end the audit proceedings and does not decide on the obligations of the Company. The protocol raises certain questions as regards tax settlements made. The Company must respond to this by April 30, 2013.

## 10. Related party transactions

As at 31 March 2013, France Telecom S.A. owned 49.79% of shares of the Company and had the power to appoint the majority of TP S.A.'s Supervisory Board members. The Supervisory Board appoints and dismisses members of the Management Board. The shareholding of France Telecom S.A. will increase to 50.67% upon registration of the redemption of own shares by the Registry Court (see Note 7).

The Group's income earned from the France Telecom Group comprises mainly interconnect, research and development services, data transmission and reimbursement of rebranding expenditures in 2012. The purchases from the France Telecom Group comprise mainly costs of interconnect and leased lines, network services, IT services, consulting services and brand fees.
