³ 4Q 2011 excluding PLN -172mn restructuring provision, PLN -35mn increase in DPTG provision, PLN -5mn additional costs on Emitel disposal; 2011 additionally excluding PLN 1.2bn gain on Emitel disposal and a PLN -0.46bn provision for EC fine (both recognised in 2Q). 2010 pro-forma (adj. for de-consolidation of Emitel) and excluding the PLN -1.1bn revision of provision for the DPTG dispute. Cost base up to EBITDA.

Commenting on TP Group's performance in 2011, Mr. Maciej Witucki, President of the Board and Chief Executive Officer, said:

"2011 was year of solid performance for TP Group, as we were able to steer a steady course despite tough market and macroeconomic conditions. Disciplined execution of our action plan delivered considerable progress in our commercial field, whilst simultaneously we delivered on our financial targets. The continuously challenging environment has not prevented us from making several strategic moves that are going to be critical for our future success. These include network sharing with T-Mobile, co-operation with TVN and the social agreement reached with trade unions. We have reached a final settlement in the long-lasting dispute with DPTG in the best interest of the Company and its shareholders. In addition, successful disposal of Emitel allowed us to launch a share buyback that further boosts shareholder remuneration.

Looking ahead in 2012, we are determined to maintain robust growth in mobile and to bring broadband onto a higher growth path, also thanks to our quality of service. Indeed, effectively delivering on our customer excellence program ranks at the top of our agenda for this coming year and we intend to make the most of the opportunity offered by the sponsoring of the EURO 2012 by Orange. The next 12 months will be devoted to further strengthening our fundamentals and setting the basis for a winning medium term strategy beyond 2012."

Financial Review

(Unless otherwise stated, all references to 2010 hereafter are stated in pro-forma¹ 2010 financial statements)

2011 revenue down by 4.1% year-on-year, in line with TP Group 2011 outlook and guidance

According to the TP Group's estimates, value of the Polish telecom market in 2011 decreased by 0.4% compared to 1.9% fall in the prior year. Evolution of market value throughout the year, predominantly reflected MTR cuts made in January 2011 (SMS MTR from PLN 0.15 to PLN 0.08) and in July 2011 (SMS MTR from PLN 0.08 to PLN 0.07 and voice MTR from PLN 0.1677 to PLN 0.1520). The adverse impact of these was especially visible in trends of the mobile market, which registered a 3.1% growth in 1Q 2011 only to post a 0.6% year-on-year decline in 4Q 2011. Nevertheless, it continued to provide major support to the overall market trend, rising by 1.3% in the full year, while fixed market fell by 2.8%.

Similarly to market trends, the evolution of TP Group's top-line reflected the aforementioned MTR cuts. It declined by 4.1% year-on-year as compared to -5.1% in 2010, while excluding the regulatory impact Group revenues fell by 2.6%. The improvement in revenues dynamics is a combination of solid, 3% pre-regulatory growth in mobile, slower decline in fixed segment (-6.6% year-on-year as compared to -8.5% a year ago), coupled by a -2.0% impact of MTR cuts on Group sales.

solid restated² EBITDA margin at 36.3% revenue, despite PLN 90mn adverse forex impact

TP Group's restated² EBITDA stood at 36.3% of revenues in 2011, as compared to 36.6% a year ago. It was driven down mainly by the pre-regulatory revenue contraction of PLN -398mn (mainly due to fixed segment), coupled with PLN -90mn due to foreign exchange losses related to weakening of the PLN. Without the FX impact, EBITDA margin would have stood at 36.9%, so near the top-range of the outlook. The EBITDA was boosted by PLN 182mn savings from the cost optimisation program, as rigorous stand towards expenses brought the cost base down by 3.7%² since 2010. The mobile segment continued to be important contributor towards Group's EBITDA, with its full- year EBITDA up by 1.7% year-on- year and at solid 29.8% margin.

2011 net income at PLN 1,918mn, resulting in EPS at PLN 1.44

TP Group's net income for 2011 stood at PLN 1.9bn, resulting in earnings per share of PLN 1.44. It was predominantly driven up by a PLN 1.3bn growth of the reported EBITDA. In 2011 EBITDA included PLN +1.2bn gain on disposal of Emitel, PLN -458mn provision for the fine imposed by the European Commission, PLN -172mn impact of restructuring provision and PLN -35mn provision due to the final settlement with DPTG. In 2010, EBITDA included PLN -1.1bn due to a provision booked in relation to the DPTG dispute. Increase in EBITDA was accompanied by a PLN 67mn decrease in depreciation and a PLN 33mn decline in financial cost, as well as by a PLN 464mn positive difference in income tax (due to new technology tax relief booked in 3Q and deferred tax asset recognised on the DPTG settlement).

2011 guidance delivered, with net free cash flow of PLN 2.4 bn

Cash generation remained strong and delivered net free cash flow of PLN 2,403mn in 2011 as compared to PLN 2,440mn in 2010). Net cash from operating activities (before income tax paid and change in working capital) was lower by PLN 247mn since the previous year, primarily due to lower restated EBITDA. This was coupled with PLN 676mn more cash outflows to capital

expenditure suppliers and finally offset by a PLN 737mn positive difference in working capital requirements and PLN 149mn lower income tax paid.

2011: mobile segment review

- revenues stable year-on-year due to MTR cuts
 - excluding MTR impact, mobile top line up by 3.0% since 2010
- 2011 EBITDA up by 1.7% year-on-year, with solid margin at 29.8% (+0.5p.p. year-on-year)
- good commercial momentum maintained: 326,000 net additions, including 44,000 in 4Q, leads to a 2.3% year-on-year growth of mobile customer base
- leadership in market value maintained, with a stable 30.2% market share in 4Q
- dedicated mobile broadband subscriptions growing by 35.4% year-on-year
- post-paid data ARPU in 4Q up by 20.8% since 2010, reflecting substantial contribution from smartphones, as their share in postpaid sales and retentions reached 35% in 4Q

Key figures

Mobile line indicators	4Q 2011	4Q 2010	Change	2011	2010	Change
Revenues (PLN million)	1,936	2,002	-3.3%	7,706	7,711	-0.1%

EBITDA margin (as a % of revenue)	26.9%	28.9%	-2.0 pp	29.8%	29.3%	+0.5 pp

Mobile segment's revenues were flat year-on-year as its evolution reflected the adverse impact of SMS and voice MTR cuts. Excluding this impact, revenues were up by 3.0% as compared to 2010, driven by solid growth of Orange customer base (326,000 or +2.3% year-on-year), which has more than offset market price pressure. The number of smartphones continued to rise, driven by a systematic growth of their share in postpaid sales and retentions - from 22% in 4Q 2010 to 35% in 4Q 2011. This had a positive effect on data ARPU¹, which posted a 20.8% year-on-year growth.

The mobile EBITDA delivered a solid performance, and grew by 1.7% year-on-year, and stood at a 29.8% margin, as compared to 29.3% a year ago. This was achieved thanks to flat top-line, coupled with a 5.5% decrease of the interconnect costs (due to MTR cuts and a decrease in MTR asymmetry towards P4).

2011: fixed line segment review

- revenue down by 6.6% year-on-year, vs. -8.5% in 2010
- 4Q decline contained to 3.4%, helped by growth in wholesale and ICT projects
- restated³ EBITDA at 37.6% margin, due to lower sales and -PLN 52mn adverse FX impact
- broadband recovery confirmed, as 60,000 broadband net adds drove customer base to a 2.6% growth year-on-year
- 47% of all Neostrada sales made with 6Mb/s and faster options *versus* ca. 18% in 2010
- TV customer base up by 17.0% year-on-year reaching 636,000 subscribers

Key figures

Fixed line indicators	4Q 2011	4Q 2010	Change	2011	2010	Change
Revenue pro-forma ¹ (PLN million)	2,052	2,125	-3.4%	8,282	8,866	-6.6%
Number of retail fixed lines (000's) ²	5,623	6,346	-11.4%			
Number of retail broadband accesses (000's)	2,346	2,286	+2.6%			
Number of TV customers (000's)	636	544	+17.0%			
restated ³ EBITDA margin (as a % of revenue)	35.5%	36.3%	-0.8 pp	37.6%	38.9%	-1.3pp

Fixed segment's revenues decline was contained to 6.6% year-on-year versus -8.5% in 2010. It reflected an improving trend over the course of the year: from 7.8% decline in 1Q 2011 to only 3.4% fall in 4Q 2011. The low decline in 4Q was primarily driven by: lower fixed voice erosion (PLN -141mn in 4Q vs PLN -165mn average in first 3 quarters), higher international traffic and ICT related projects. Top-line erosion continued to be predominantly driven by fixed-to-mobile substitution, as illustrated by a 11% fall in the number of fixed retail lines in 2011. TP Group's broadband strategy resulted in the product's progressive upturn, as its customer base grew by 60,000 or 2.6% year-on-year, with positive net adds reported in each quarter. Moreover, share of high speed options (6Mb/s and more) in total Neostrada sales reached 47% in 2011, which is a meaningful improvement as compared to 18% in 2010. TP's TV offering continued to grow, with customer base up by 17% and reaching over 27% penetration in retail broadband.

Fixed line restated³ EBITDA stood at a 37.6% margin, as compared to 38.9% in 2010, as the decline in revenues and adverse FX impact have not been fully offset by benefits of the cost optimisation program. Reported EBITDA stood at a high 43.8%, mainly helped by the PLN 1.2bn gain on disposal of TP Emitel.

¹ adjusted for de-consolidation of Emitel from 2H 2010

² including Orange WLR and Orange WLL

³ 4Q 2011 excluding: PLN -172mn restructuring provision, PLN -35mn increase in DPTG provision, PLN -5mn additional costs on Emitel disposal; 2011 additionally excluding PLN +1.2bn gain on Emitel disposal and PLN -0.46bn provision for EC fine. 2010 excluding PLN -1.1bn revision of the provision for DPTG dispute recorded in 3Q, fixed segment EBITDA margin is not based on proforma comparison.

proposed 2011 shareholder remuneration

Based on the 2011 results, the Management Board will submit to shareholders' approval a shareholder remuneration of PLN 1.50 per share, resulting in an estimated total of PLN 1,987 million (due to an ongoing share buy back program, estimate based on number of TPSA shares in circulation as of December 31, 2011) to be distributed in the form of an ordinary cash dividend.

outlook on operational trends and net free cash flow guidance for 2012

outlook on operational trends for 2012

- The evolution of Polish telecom market value will be affected by MTR cuts (sms and voice) implemented in July 2011, as well as new MTR cuts announced for 2012. Nonetheless, the anticipated growth of the mobile and broadband volumes, coupled with increasing usage should offset MTR impact and total market value is anticipated to near stabilisation. In this context TP Group's revenue is anticipated to decrease in 2012, but by no more than 3%¹.
- TP Group will maintain rigorous cost control with a view to bring the cost base further down¹, although the volatility of the PLN is decreasing predictability of the results. As a consequence, the EBITDA margin for 2012 is anticipated in the 35% to 37% range¹.
- Capital expenditure is anticipated in the range of 15% to 17%¹ of revenues, as it will be mainly driven by completion of the broadband investment program agreed with the Regulator in 2009.

2012 net free cash flow guidance

 In line with the Group's medium term action plan, 2012 net free cash flow generation is anticipated to be at least PLN 2 bn¹.

Commenting on the 2011 results, Mr Jacques de Galzain, TP Group's Chief Financial Officer said:

"TP Group's solid performance once again demonstrates our commitment to execution of the medium term strategy. We have delivered on our financial targets and maintained a very healthy balance sheet, despite the €550 mn final settlement of the dispute with DPTG. The successful disposal of TP Emitel has not only allowed us to launch a PLN 800mn share buy back, but also contributed to a net result of PLN 1.9bn, which nearly fully covers our dividend for 2011. We believe that together with the share buyback program, our proposal of PLN 1.5 dividend per share further underscores our commitment to offer shareholders an appropriate remuneration of their ongoing support."

¹ excluding €550mn payment to DPTG, exceptional items, and change in consolidation scope
