1. Letter from the Chairman of the Supervisory Board

Dear Shareholder,

The second year of implementation of our **.Grow** strategy was marked by massive changes in the geopolitical and macroeconomic environment. The outbreak of war in Ukraine, the energy crisis and the highest inflation rate in many years resulted in the exceptional instability of business conditions. However, our strong operating and financial performance in 2022 confirms that Orange Polska has healthy foundations and the right strategy, which has passed the test even in such a difficult environment. The Supervisory Board applauds the efforts of Orange Polska's teams in the face of such unprecedented challenges. I am also glad that the Company is increasingly able to share the benefits of the successful implementation of its strategy with the shareholders in the form of dividends.

Last year was particularly testing for our strategy pillar related to corporate responsibility. On the one hand, it involved the Company's swift and firm response to the refugee crisis related to the war in Ukraine, ranging from dedicated telecommunication offers and hosting refugees in our facilities to a number of grassroots initiatives in which our employees committed their time and resources to provide humanitarian aid. On the other, it required coping with the energy crisis. Owing to newly signed contracts to receive energy from wind farms, we will be able to both stabilise energy costs this year (following a massive surge last year) and significantly reduce CO₂ emissions. The Company has secured its strategic goal in this respect three years ahead of the plan.

Last year, the Supervisory Board and its Strategy Committee analysed the competitive landscape in the market. Upon the acquisition of UPC by Play, a new major player emerged in the convergence market, in which Orange Polska has long been the leader. It was an expected development, which does not change the Company's attitude towards the implementation of its value strategy. In fact, the latter has become even more necessary in the face of high cost inflation. Another topic was the developments around the 5G spectrum auction. In Orange Polska, we are glad that the consultation has finally been launched and we expect a transparent auction process. The C-band will enhance the mobile network capacity and open new business opportunities.

Like every year, the Supervisory Board was also involved in all other decisions of key significance for Orange Polska. We monitored the Management Board's governance in managing the business to ensure that these activities were lawful and compliant with legal provisions and internal standards and policies, as well as appropriate and efficient. At each meeting, the Supervisory Board discussed in detail the Company's current financial and operational results in comparison to the budget adopted at the beginning of the year. More details of the Supervisory Board's assessment of Orange Polska are presented further in this chapter. It is worth noting that with respect to the assurance of the highest corporate governance standards the Supervisory Board instructed the Management Board to strengthen supervision of Orange Polska's subsidiaries.

The frequency of the Supervisory Board and its Committees' meetings mean that we are in close contact with the Management Board. In 2022, five meetings of the Supervisory Board and fifteen meetings of its Committees took place. The average participation rate was 91,4%. Both General Meetings that took place in 2022 enabled shareholders to participate in a fully remote way, which is in line with the best practice in this respect.

Looking forward to 2023, in the opinion of the Supervisory Board, the key tasks for the Management Board include meeting the challenges in the **.Grow** strategy implementation in what continues to be a difficult macroeconomic environment, particularly under the inflationary pressure on operating costs; obtaining 5G spectrum, and the gradual development of a plan for the next strategic period.

While there are clear challenges, I am fully confident that we have adequate resources and assets to meet them – a task in which the management will be supported by the Supervisory Board. Operating in an attractive market, we are guided in our activities by long-term value creation for all our stakeholders.

Maciej Witucki

Chairman of the Supervisory Board

2. Information about the members of the Supervisory Board and its committees

Maciej Witucki, Chairman of the Supervisory Board, and John Russell Houlden, Independent Board member and Chairman of the Audit Committee, participate in the meetings of the Strategy Committee on a permanent basis. Moreover, all other members of the Supervisory Board are invited to meetings of the Strategy Committee and participate in them.

3. Information regarding the degree of implementation of the diversity policy applicable to the Management Board and the Supervisory Board

Since 2016, the Company had a Diversity Management Policy presented in a single comprehensive document outlining diversity policy for various areas of management.

In addition, following the Best Practices of Listed Companies 2021 issued by the Warsaw Stock Exchange on 3 November 2021 the Supervisory Board adopted the diversity management policy for Members of the Management Board. Following suit, the Annual General Meeting adopted the diversity management policy for Members of the Supervisory Board on 22 April 2022.

The purpose of the Policy is to:

- 1) determine the standards that must be met for positions in the Company's Management bodies to be occupied by persons with appropriate qualifications, substantive knowledge, skills, professional experience, predispositions and reputation appropriate to perform such function.
- 2) Implement solutions for equal treatment and diversity in relation to the Management Board of Orange Polska.

In the process of selection of Members of Orange Polska's Management Board, the Supervisory Board:

1. is guided by the transparency of the principles and criteria for selecting candidates.

2. makes decisions on the selection of members based on the appropriate level of knowledge, skills, education, competences and professional experience of the candidates.
3. ensures that the members of management bodies include people of diverse gender, age, specialist knowledge, education and professional experience.
4. and, with regard to gender diversity, aims to ensure that at least 30% of participants are women.

As of 31 December 2022, women make up 36% of the Supervisory Board and 25% of the Management Board.

4. The summary of the activity of the Supervisory Board and its committees

The Supervisory Board, acting in compliance with the provisions of the Commercial Companies Code and the Company's Articles of Association, exercised permanent supervision over the Company's operations in all fields of its activities.

In 2022 the Supervisory Board fulfilled its duties resulting from the provisions of the Commercial Companies Code including the appraisal of the Orange Polska financial statements, the Management Board's report on activity and the Management Board's motion on distributing the Company's profit for the 2021 financial year and filing with the General Meeting reports presenting the results of the above mentioned appraisals.

The Supervisory Board took due care to ensure that the Management Board's reports and the financial statements were in compliance with the law.

The Supervisory Board also executed its rights and obligations arising from the Company's Articles of Association and the Best Practice for GPW Listed Companies 2021, of which the following should be mentioned:

- 1) stating an opinion on motions submitted by or via the Management Board to the General Meeting,
- 2) stating an opinion on Orange Polska S.A. and Orange Polska Group strategy plan,
- 3) stating an opinion on Orange Polska S.A. and Orange Polska Group budget,
- 4) preparing the report on the Supervisory Board's activity in 2021.

Throughout 2022, the Supervisory Board mainly focused on the following issues:

a) Competitive landscape on the Polish telecom market

The Polish market continues to be competitive with the main battlefield moving from singular offers to packages of services. One important development in 2022 was the finalisation of the acquisition of UPC (the largest cable company) by Play, which had previously been a mobile-only operator. As a result, a significant new convergent operator emerged. This will further intensify competition in market's pursuit of convergent strategy, an area in which Orange Polska has been the leader for many years now. The Supervisory Board and the Strategy Committee analysed the potential impact of this situation on Orange Polska's business. The conclusion was that the Company's

operations are well prepared and it is essential to continue to implement our value strategy, so crucial in this inflationary environment. The fact that we achieved strong commercial and operational results last year confirmed this approach.

b) Developments around 5G auction

The Supervisory Board has closely monitored developments around the process of launching the auction for 5G frequencies and the corresponding legal environment, mainly cybersecurity law. The new draft of this law was published by the government in October 2022 and it no longer included provisions regarding the so called #PL5G project. Its unexpected inclusion in the previous draft version (published October 2021) was a reason for a concern regarding its legal and governance framework. Supervisory Board was very pleased that the 5G auction consultation process finally started in December despite the fact that the proceeding of the cybersecurity law has not been finalised. We hope for efficient and transparent process. Dedicated 5G spectrum is necessary to improve mobile network capacity and to unlock new business potential.

c) Merger with Teltech subsidiary and strengthening of governance over other subsidiaries

In 2022 Orange Polska decided to merge with its 100% owned subsidiary Teltech. This allowed us to streamline the operational efficiency of the Orange Polska Group by simplifying our management and business processes and integrating the merging companies. In October, an Extraordinary General Meeting was convened to approve this merger. The Supervisory Board also asked management to strengthen governance enhancing supervision over its subsidiaries. In particular this was aimed at the implementation of coherent ESG strategies, supporting communication between the subsidiaries and Orange Polska's management, as well as improving the monitoring of various business risks.

d) Monitoring of operating and financial results and budget realisation

The Supervisory Board constantly monitored Orange Polska's commercial and financial results and the realisation of the 2022 budget. This was especially important in the light of the challenges related to the impact of surging energy costs and outbreak of the war in Ukraine. In addition, an unprecedented spike in energy prices catalysed the Company's efforts towards increasing the amount of energy from renewable sources in our energy mix. As a result, the majority of energy consumption from 2023 will come from wind farms, with a positive impact on costs.

The Supervisory Board met 5 times in 2022.

The attendance at the Supervisory Board's meetings was 91,4% and 94,4% including its committees.

**) Actual number of meetings attended / Maximum number of scheduled meetings which the directors could have attended*

The Supervisory Board regularly monitored the execution of its resolutions and recommendations, analysing the information presented by the Management Board.

The Supervisory Board formulated a number of recommendations, remarks and motions to the Management Board, referring to different aspects of the Company's operations.

The Supervisory Board used in its operations opinions of its Committees (the Audit Committee, the Remuneration Committee and the Strategy Committee), wherever applicable.

During discussing specific matters at the meeting, the Chairpersons of the committees presented appropriate recommendations and proposals for decisions to the Supervisory Board. In addition, the Supervisory Board regularly receives the minutes from the committees' meetings.

The committees of the Supervisory Board received relevant and reliable information and reports from the Management Board on time, enabling them to carry out their tasks in 2022.

The reports of the three permanent committees of the Supervisory Board on their activities in 2022 are attached hereto.

The tasks and the principles of the operation of the Supervisory Board and its permanent committees are defined in the Regulations of the Supervisory Board which are available on the Company's website.

5. Appraisal of the fulfilment by the Management Board of information obligations to the Supervisory Board and the manner of providing

Acting pursuant to provisions of art. 382 § 3¹ clause 3) and 4) of the Commercial Companies Code, the Supervisory Board positively assessed the performance by the Management Board of the obligations referred to in art. 380¹ of the Commercial Companies Code and § 25 clause 11 of the Company's Articles of Association, as well as the method of preparing and submitting information, documents, reports or requested explanations to the Supervisory Board.

6. Information on the total remuneration payable by the Company for all audits commissioned by the Supervisory Board during the financial year

According to art. 382 § 3¹ clause 3) of the Commercial Companies Code, the Supervisory Board informs that in 2022 it did not order any matter regarding the Company's operations or its assets to be examined at the expense of the Company, nor did any analysis or opinion be performed by any adviser.

7. Appraisal of the Management Board's annual reports

The Company's Supervisory Board, acting pursuant to provisions of art. 382 § 3 clause 1) i § 3¹ clause 1) of the Commercial Companies Code and § 23.2.1 of the Company's Articles of Association, by the resolution No. 11/23 dated 14 February 2023, made a positive assessment in terms of their compliance with the books, documents and the facts:

- 1) the IFRS separate financial statements of Orange Polska S.A. for 2022 financial year;
- 2) the Management Board's report on the activity of Orange Polska Group and Orange Polska S.A. for 2022,
- 3) the IFRS consolidated financial statements for 2022.

8. Appraisal of the Management Board's proposal regarding the distribution of profit

Acting pursuant to provisions of art. 382 § 3 clause 2) and § 3¹ clause 1) of the Commercial Companies Code and to § 23 clause 2 item 2 of the Company's Articles of Association, the Supervisory Board reviewed and positively assessed the Management Board's motion contained in the resolution No. 5/23 dated 15 February 2023 on distribution of the Orange Polska S.A. profit for the 2023 financial year in the amount of PLN 756,729,492.64, as follows:

- 1) for a dividend – PLN 459,325,117.65. The amount of dividend shall be PLN 0.35 for each entitled share;
- 2) to the reserve capital, referred to in § 30 clause 3 of the Articles of Association – PLN 15,134,589.85;
- 3) to the reserve capital – PLN 282,269,785.14.

9. Assessment of Orange Polska Group's standing

This section contains the Supervisory Board assessment of the Orange Polska Group's standing on a consolidated basis in 2022 in accordance with the recommendation no. 2.11.3. of the Best Practice for GPW Listed Companies 2021, introduced by the Warsaw Stock Exchange. The assessment is based on the 2021 financial results of the Group (the Company and its subsidiaries) as well as on the information obtained by the Supervisory Board in conducting its statutory tasks.

The Supervisory Board, through the work of its committees and all its members (including independent members), was actively engaged in the process of evaluating of the most important initiatives, having in mind the interest of all the Group's stakeholders, including shareholders. In addition, it maintained oversight of the Group's operational and financial goals through management reporting at its quarterly meetings, and was able, through the Audit Committee, to oversee the accuracy of financial reporting and the functioning of the internal control, risk management and compliance systems and the internal audit function.

Orange Polska Group's Operational Review

The Group's key goals in 2022 were:

- Further development of key value drivers including convergence, mobile, fibre and ICT, also taking into account possible changes in the competitive landscape following acquisition of UPC by Play;
- To take measures in an attempt to pass high inflationary pressures to customers to protect profitability;
- To weather risks related to an unprecedented rise in energy prices through new Power Purchase Agreements (PPA), among other methods;
- To assess risks related to the war in Ukraine and take on necessary mitigating actions;
- Acquisition of 5G spectrum;
- Pursue transformation of corporate culture to be more agile and cost effective as well as implement a new post-pandemic workplace model;
- Fulfilment of published financial forecasts and expectations regarding revenue growth and EBITDAaL.

2022 was the second year of implementation of **.Grow** strategy announced in 2021. It was marked by a cumulation of exceptional headwinds such as war in Ukraine, the widespread energy crisis and double-digit inflation. Against this difficult backdrop the Company managed to fulfil all its strategic goals which was a remarkable achievement, in the opinion of the Supervisory Board. This can be seen as evidence of the strong fundamentals at the heart of Orange Polska's business.

The key challenge of 2022 was to mitigate the impact of an unprecedented energy crisis. Energy prices spiked mainly as a result of the war in Ukraine and resulting sanctions imposed on Russia. The Company managed to mitigate this impact through strong growth of its core business and by adapting its cost base. In addition, by signing new Power Purchase Agreements (PPA), it secured a majority of its energy costs for the years ahead. This also led to a major reduction in CO2 emissions, thereby fulfilling a strategic goal in this domain three years ahead of the plan.

The Group delivered on all its financial goals and maintained strong commercial momentum. The latter is especially important taking into consideration the emergence of a significant new competitor in convergent offers after Play finalised acquisition of the largest cable company UPC. Our fibre customer base increased by another 24% due to high demand and expanding fibre reach. Fibre from Orange is already available for nearly 50% of households in Poland. The Company intensified its more-for-more value strategy in almost all key areas in B2C and B2B. This is absolutely essential to at least partly mitigate the impact of high inflation, in particular because the prices of telecom services in Poland are significantly below those of other European countries

The Company made further progress in digitisation which is one of the key tools for increasing internal efficiency and responding better to customer needs. We are also now seeing the first tangible benefits of the Company's cloud partnership with Google. The aim is to manage a majority of customer interactions through machine learning and AI, which will allow an improved personalisation of offers. Sales through digital channels increased by another 20% in 2022. The two main drivers are digital offer Flex, and the My Orange application, which is constantly improved to boost its usefulness for customers.

One of key topics for the Supervisory Board in 2022 was again, the situation regarding the auction for 5G C-Band spectrum and cybersecurity regulations. The new version of the cybersecurity law no longer included provisions regarding the so called #PL5G project. Its unexpected inclusion in the previous draft version (published October 2021) was the reason for a concern regarding its legal and governance framework. The Supervisory Board was very pleased that the 5G auction's long-awaited consultation process finally started in December. The proposed set up has predictable bidding rules and demanding investment commitments. The Company submitted its position in the consultation process in January. We hope the process will be conducted in the timeframe announced by the regulator.

Orange Polska is in the mid-point of its strategy cycle. In the opinion of the Supervisory Board the results of the past two years prove that the Company is well on track to meet its goals, despite a particularly demanding and challenging external environment.

Financial standing of the Group

The Management Board kept the Supervisory Board informed of the financial results. The Audit Committee of the Supervisory Board supervised the reliability of financial reporting on an ongoing basis and presented its opinions to the Supervisory Board before publication of the results for individual reporting periods.

The Group met all its financial goals for 2022 delivering strong results across the board despite a particularly challenging external environment. It grew revenues, profits and return on capital employed while preserving a solid cash generation and a safe balance sheet. Initial expectations for the year were outperformed.

In the opinion of the Supervisory Board EBITDAaL growth of close to 4% is a particularly remarkable achievement. It was delivered despite a spike in energy costs of more than PLN 200 million resulting from the widespread energy crisis. This reveals the strength of the Company's business model. Strong revenue performance was a key enabler. All three engines of core business delivered solid growth: services for consumers, businesses and wholesale activities. This growth filtered through to profits thanks to high operating leverage as the cost base growth was limited due to optimisation initiatives.

Total revenues increased 4.7% in 2022 which was much more than initially anticipated mainly due to very strong performance of ICT services resulting from wide and well-diversified portfolio of products and the continued demand for digitisation. Core telecom services (including combining convergence, mobile and fixed broadband), which are essential to margin generation, were up 6.3%, almost as much as in the previous year. This was an outcome of the successful combination of strong growth of customer volumes and improving average revenue that they generate (ARPO). Last year was particularly strong for the Group's wholesale operations (excluding legacy services) as it benefits from good demand for infrastructure rental to other operators.

Net profit for 2022 exceeded PLN 700 million and excluding the impact of transaction related to Światłowod Inwestycje in 2021, it was on the highest level in a decade. It was due to growing EBITDAaL and falling depreciation.

Organic cash flow amounted to more than PLN 800 million marking another year of strong cash generation. Capex was kept at broadly flat levels versus 2021 and reflected refocus from fibre to mobile, as planned in the **.Grow** strategy.

Net debt and the financial leverage was further slightly reduced despite payment of the dividend and 2.1 GHz spectrum renewal. The financial leverage of 1.3x illustrates strong balance sheet structure, an important asset in the current turbulent environment. It is important to note that the cost of debt was only 3.3%, resilient in the face of significant interest rate increases due to effective hedging.

In 2022 the Company has returned to dividend payments, which was positively assessed by the Supervisory Board. Orange Polska is in the position to share the benefits of its growth with its shareholders. For 2023 the Management recommended a 40% increase of the dividend to PLN 0.35 per share.

The financial results of the past two years show that the Company is performing exactly as it has committed and is fully on track to meet its mid-term goals.

Conclusions and recommendations for 2023

Orange Polska has passed the mid-point of its **.Grow** strategic plan for 2021-2024. The results of the past two years confirm that it is the right strategy for turbulent times. The Company is on track to meet its goals. 2023 looks set to be another challenging year taking into consideration an expected slowdown of the Polish economy and double-digit inflation affecting operating costs. The Supervisory Board is convinced that the Group has put in place the right measures to bring the most of its assets and values.

The Supervisory Board shares the Management Board's opinion that in 2023 the Group should focus its operations on the following key aspects in particular:

- Persistent execution of commercial value strategy in all key areas to at least partly reflect higher operating costs in output prices.
- Continued cost transformation to navigate through inflationary challenges, including releasing further benefits of digitisation and automation of business processes
- Further development of key value drivers including convergence, mobile, fibre, ICT and wholesale

- Acquisition of 5G spectrum
- Pursue transformation of corporate culture to be more agile and cost effective
- Further push of the OrangeGoesGreen agenda on both environment and social fronts
- Fulfilment of published financial forecasts regarding revenue, EBITDAaL and eCapex performance
- Gradual preparation of foundations for the new strategic period beyond 2024

10. Assessment of the Group's internal control, risk management and compliance systems and internal audit

The Supervisory Board is responsible for reviewing the effectiveness of the Group's system of internal control and risk management designed and established by the Management Board, as well as the system for ensuring compliance with standards or applicable practices and the internal audit function.

This system facilitates management of the risk of failure to achieve business objectives and provides reasonable assurance against material misstatement or loss, (Risk management does not mean the full elimination of risk, but provides for better risk identification and the implementation of adequate measures as needed). The relevant processes are designed to give reasonable assurance that the risks significant to the Group are identified and addressed in the Company, but such assurances can never be absolute.

The Company continuously monitors the evolution of the control environment. It ensures that all significant changes are sufficiently controlled and any identified deficiencies in the internal control system are addressed with action plans. On a quarterly basis, the internal control system is monitored in a self-assessment tool implemented by the Company and, in addition senior managers certify the effectiveness of the internal controls. On a yearly basis, the controls are subject to testing by the internal control team, internal and external auditors, and the results are reported to the Audit Committee.

The key elements of the system of internal control, including risk management, were presented in the Management Board's Report on the Activity of the Group for 2021, published on 16 February 2022.

In 2022, the Company again completed a comprehensive assessment of its processes of internal control over financial reporting. Main deficiencies both in design and in effectiveness of internal control have been identified and corrected, or appropriate action points have been launched. As a result of the assessment, the Management concluded that there were no weaknesses that would materially impact the internal controls and financial reporting at 31 December 2022.

Both the internal and external auditors report to the Management Board and also to the Audit Committee on control deficiencies which they identified during their audit. Their recommendations are being implemented.

The most important risks are updated annually by the Management Board and presented to the Supervisory Board.

Matters related to compliance are being reported to the Audit Committee of the Supervisory Board in the following areas: ethics, general compliance with laws and regulations, combating telecommunications and financial fraud, security and anti-corruption measures related with Anti-Corruption Policy that puts forward zero-tolerance rule towards corruption. The Compliance function carries out activities ensuring adjustment of Company's internal regulations and mechanisms to, among others, the Group's requirements in the scope of current anti-corruption regulations.

Orange Polska anti-corruption policy, complemented with detailed internal regulations, defines the required standards for employees' conduct. On the basis of relevant provisions of the policy, potential consequences are determined in cases of violation of anti-corruption procedures. The Compliance Management function conducts cyclic reviews of corruption risks, also taking into account control mechanisms and appropriate preventive measures.

The Company also has a conflict of interest policy in place, showing how to avoid situations that may turn into inappropriate behavior leading, e.g., to corruption.

Under the due diligence process, verification of current and future business partners is conducted with regard to threats related to corruption, fraud, non-compliance with economic sanctions, money laundering and financing of terrorism.

Orange Polska employees and stakeholders may use dedicated channels to report their concerns or to ask for advice if they suspect a conflict of interests, bribery or any infringement of internal regulations of the Group or of other regulations of the law. Persons reporting irregularities can do so without fear of negative consequences.

Dedicated training sessions taking into account the exposure of individual areas of OPL to the risk of corruption and communication activities aim to constantly increase knowledge and build employees awareness. OPL also conducts regular reviews in this area, makes necessary improvements and monitors the correctness of payments made.
